

OnShip Station

Smart. Accurate. Efficient.

Your complete desktop shipping solution with integrated dimensioner, scale, and label printer.

Why Choose OnShip Station?

- **Easy to Use** — Intuitive design makes weighing, measuring, and labeling packages fast and simple.
- **High Capacity** — Accurately weighs packages up to 70 lbs.
- **Advanced 3D Technology** — Automatically captures package dimensions to prevent costly post-shipment carrier adjustments.
- **Save Money** — Eliminate surcharges from incorrect dimensions and access discounted carrier rates.
- **Fast & Efficient** — Streamlined workflow for weighing, measuring, and shipping—all in one small footprint.

OnShip Station Includes:

- **3D Parcel Dimensioner** — No more rulers, measuring tapes, or guessing box sizes
- **70 lb Capacity Scale** — Perfect for all your packages
- **Thermal Label Printer** — Standard 4×6 shipping labels
- **Wi-Fi Ready** — Real-time data input/output
- **Annual OnShip Elite Subscription** — Delivery address validation, customer address book, HazMat shipping, multi-carrier best-way rate shopping, wholesale rate marketplace (add your rates, too!), e-commerce orders integration for accurate order fulfillment, and a digital wallet for all your platform carrier payments.

OnShip Station Specifications:

- **Weight Capacity:** 0.05 lb – 70 lb
- **Package Dimensions:** Length 4" – 35", Width 4" – 20", Height 2.6" – 34"
- **Accuracy:** ±0.2"
- **Power Requirements:** 110 – 240 VAC, 50–60 Hz
- **Operating Temperature:** 41°F – 104°F

The OnShip Advantage

OnShip Station is a plug-and-play turnkey system that reduces costs, eliminates shipping errors, and streamlines your shipping workflow efficiency. Whether you're shipping 10 packages a day and only need one OnShip Station or you ship thousands of packages per day and need multiple OnShip Station shipping streams, we make your shipping operation faster, smarter, and more affordable. OnShip...Shipping Reimagined!
